Patient Care Where You Need it

Home visits and office visits can be arranged when medically necessary.

Enhanced Coordination of Referrals

As a member you would get personalized referrals to the best local specialists. The office can even assist you obtain access to top sub-specialists in the world at University of Pennsylvania and the Harvard Medical health system. After these visits, you will receive follow up to explain what these finds mean to your overall health.

Oversight of Care

Via technological tools such as electronic health records, your physician will oversee all hospital care, whether it be local, across the country, or across the world.

Electronic Medical Record (EMR)

Studies have proven that EMRs improve the quality of healthcare. Members will have their own electronic charts which as be accessible to your physician 24/7/365 creating seamless continuity of care-in our office or anywhere in the world. Intelligent software systems help prevent drug interactions, and improve communication between physicians.

Personal Health Record (PHR)

As a member, you will have confidential access to your own medical record via a secure internet patient portal. You can check your laboratory values and other aspects of your chart from home at any time as well as ask your physician any questions you may have. Your physician will contact you about your blood work that day and explain the significant findings. You may also receive a wallet sized mini-CD ROM containing your medical history, medications, allergies, recent lab results, and a baseline EKG. This accurate and secure medical information is invaluable for use by specialists or in case of emergency.

Website, Email and Fax Availability

Your access to healthcare tools go beyond the routine doctor's visit. Use email, fax or their website to request an appointment, order refill prescriptions and read articles from trusted sources.

Dedicated Support Personnel

Your calls during office hours are answered by a person, as they should be, and not by an automated system. Each member will receive unparalleled personal assistance with their medical needs from our exceptional medical and administrative staff. Facilitation of appointments to see specialists, test scheduling, vaccines, and insurance claims assistance will be provided by our staff.

Special Needs Assistance

When necessary, our physicians will take care of elderly patients' special needs via home visits and coordinate aspects of home health care. We can help members such as the elderly arrange transportation to tests and doctors' appointments.

Travel Medical Services

Foreign travel requires detailed planning, especially when it comes to medical preparedness. Your physician will review your travel itinerary, arrange for necessary vaccinations and provide access to relevant clinical information.
